No. 39 - 74

TITLE/SIGNIFICANCE:

Modified IL-18 (COOT)

COMMENT: A COOT has been modified by adding a [redacted] boat-shaped [redacted] probable radome to the top of the fuselage. [redacted] extension has also been added to the tail of the plane. The role of the aircraft is unknown, however the best possibilities are ASW, scientific observation of space phenomena, or laser research. COOT aircraft with a variety of modifications have been previously observed at Ramenskoye Flight Test Center.
